Technical Data Sheet

LF0200

Low Density Polyethylene

LF0200 is a high molecular weight low density polyethylene film grade combining good flexible extrusion behavior and superior mechanical properties. Film made from LF0200 exhibits high dart impact combined with excellent yield and tensile strength and high stiffness. Its toughness bears even in cold temperatures. The film can be sealed on all types of machines. The film possesses good dimensional stability and is resistant to tearing and breaking. LF0200 contains antioxidant.

Applications:

- General purpose bags
- Packaging of mechanical parts Industrial film
- Carrier bags large bottles
- Coextruded milk bags
- Low tension power cables insulation and industrial injection moldings.
