

Technical Data Sheet

R200
Expandable Polystyrene

High-quality material for production of molded parts. R200 is suitable for Food packaging and freezer. Also, good choice for Furniture-making.

Applications:

R200 is and EPS class which can be used in production of EPS foam in density ranges between 12 Kg/m³–20 Kg/m³ suitable for high quality block molding with a section thickness of 15 mm and higher.

R200 is used for cases and packaging product suitable for food contact, insulation applications is not requiring fire classification.

PROPERTY	UNIT
Bead size - Diameter	0.9 -1.4 mm
Residual Styrene Monomer	Less than 1000 ppm
Moisture content	Less than 0.4%
CFC content	Null
Flammability as Per DIN 4102: B1	
Density	12-20 Kg/m ³
